EDUCATION

Pune Institute of Computer Technology

B.E. in Computer Engineering

July 2021 – June 2025

Current GPA: 9.03

Samata International School, Kokamthan

Higher Secondary Education (HSC)

2021

Percentage: 96.2%

TECHNICAL SKILLS

Frameworks/Databases: Next.js | ReactJS | Node.js | Django Rest Framework | Redux | PostgreSQL | MongoDB

Programming Languages: C++ | Python | JAVA | HTML | CSS | Javascript | Typescript

Core Subjects: Data Structures and Algorithm | OOP | Computer Network | DBMS | OS

Tools: Git | Github Actions | Prisma | Postman | pgAdmin | Docker | Cloudinary | VsCode | Figma

EXPERIENCE

Qualys

Backend Engineering Intern

May 2023 – Present

Pune, India

- Developed a microservice to generate **synthetic data** and produce it to **Kafka** for internal testing and validation.
- Integrated the microservice into **Kubernetes pods** via a **Jenkins CI/CD pipeline**, streamlining deployment.
- Utilized **Elastic OpenSearch** for efficient indexing and querying of service logs and metrics.
- Implemented **Swagger documentation** and wrote **JUnit test cases** for robust validation in a **Spring Boot** application.

Quoppo Ventures

Fullstack Developer Intern

January 2025 – Feb 2025

Pune, India

- Contributed to the development of various client platforms using **Next.js**, **TypeScript**, **MongoDB**, **Node.js**, and **PostgreSQL** to meet diverse business requirements.
- Developed a **generalized search engine** for college-related information, utilizing **vector search** and **indexing techniques** to enhance search accuracy and speed.
- Designed and implemented a **web scraping tool** leveraging existing technologies to collect and aggregate data required for building the search engine.

RhythmFlows Solutions

Software Development Intern

June 2024 – September 2024

Pune, India

- Contributed to **backend development** of **AGDI**, a ERP platform for farmers and consumers to sell and purchase agricultural goods.
- Pioneered a **lightweight library** using **Django Rest Framework** to streamline the **stock inventory management** for the system.
- Developed **REST API endpoints** and reduced **DQL** and **DML** query usage by **20%** using **Django's ORM**.

PROJECTS

PictoFest | Next.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, Firebase

- Developed a **full-stack web application** for an art fest, facilitating event management for **3.5K+ users**.
- Designed the voting feature, leading to **4.5K+ votes** cast across multiple entries.
- Implemented **JWT authentication** and **optimized API/database calls**, enhancing platform security and performance, resulting in **1.2K+ event registrations** while keeping the total system cost to just **\$0.38**.
- Built an admin dashboard that streamlined the management of **17+ sub-events** and **1K+ entries**.
- Incorporated payment verification functionality, processing **540+ payments** to ensure secure transactions.

EXTRA CURRICULAR

Pictoreal Chief Designer and Donation Drive Coordinator

PICT, Pune

- Led a team of 90+ designers to design annual college magazine, facilitated skill development in members by instructing in graphic design and video editing techniques, and organized a successful donation drive collecting non-monetary donations worth over 35,000+ INR.
